

# IC 020 ICE CLEANER

A pneumatic two-hose dry ice blaster  
designed for fine cleaning

#### Material

Fibreglass casing  
Stainless steel wheel frame

#### Weight

Low weight – only 18 kg

#### Hopper capacity

4 kg

#### Air consumption

0,3 m<sup>3</sup>/min – 0,8 m<sup>3</sup>/min

## IC 020 Ice Cleaner product features

#### IC 020 Ice Cleaner

Dry ice blaster

#### Blasting hose with a gun

Standard length of 3 m

#### Shovel

For convenient dry ice charging

#### Protective equipment

Safety clothes, gloves and protective glasses

#### Blasting nozzles

A set containing round nozzle and flat nozzle with adapter

#### Compressed air hose

With a quick connect fitting

## Characteristics

Dry ice blasting has never been so affordable! Discover a new dimension of surface cleaning!

Dry ice cleaning is now also available to garages in sole proprietorships, car dealerships, all manufacturing or maintenance companies in any industry, big or small, a cost-effective alternative to traditional cleaning methods.

The unique design of the IC 020 offers surprising flexibility and performance. The maintenance-free dosing system from ICS requires a very small amount of compressed air of 0,3 m<sup>3</sup>/min. and works reliably from a pressure of 4 bar. The consumption of 1,5 mm micro pellets is 18 - 24 kg/h.

The machine has a compact, lightweight design with a total weight of only 18 kg, including the 3 m long blast hose with the ergonomic blasting gun IG-20. You can easily transport the machine to your workstation with just one hand.

The excellent design of the machine allows easy handling even in tight operating environments. The operation of the machine is easy and fast for every user to learn.

The IC 020 comes standard with a complete set of accessories, including air hose, dry ice bucket, personal protective equipment (Gloves, goggles, ear protection, respiratory protection and protective suit), a round jet nozzle and a flat jet nozzle. The device covers a very wide range of applications of cleaning tasks.

**The dry ice blasting machine IC 020 offers unrivaled performance at an unbeatable price.**

## Technical specifications

### ⇒ Dimensions

**Length:** 528 mm

**Width:** 296 mm

**Height:** 336 mm

### ⇒ Operating pressure

4 - 7 bar

### ⇒ Compressed air supply:

NW 7.2 coupling, acc. ISO 4414/EN 983 standard

Minimum requirements for compressed air

according to ISO 8573-1:2010 [1:4:1]

Particles Class 1 0.1 mg / m<sup>3</sup>

Water Class 4 DTP 3° C

Class 1 oil 0.01 mg / m<sup>3</sup>

### ⇒ Consumption

**Dry ice:** 18 - 24 kg/h

**Compressed air:** 0.3 - 0.8 m<sup>3</sup>/min.  
depending on the nozzle type

### ⇒ Hopper capacity

4 kg

### ⇒ Noise level

65 - 94 dB(A) depending on the blasting  
pressure and surface being blasted

### ⇒ Weight

**Empty machine:** 18 kg  
with the hose

### ⇒ Material

**Casing:** fibreglass

**Wheel frame:** stainless  
steel

## Benefits

All accessories  
included

Maximum mobility

A maintenance-free design

Minimum air consumption,  
starting from 0.3 m<sup>3</sup>/min

Low weight of only 18 kg
